### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Yoon S. Ham (Reg. No. 45,307) on 05/06/2004.

The application has been amended as follows: in claim 3, lines 1 and 2, where applicants recite "...wherein the conductive pattern is a bit line pattern..." replace with -- wherein each of the conductive patterns is a bit line pattern--.

### ***Allowable Subject Matter***

2. Claims 1-8 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The prior art of record, Dennison to U.S. 5,362,666 teach in Figs.1-14 and related text a method of forming a semiconductor device having a first region and a second region comprising the steps of forming a plurality of conductive patterns (24, 26) on a substrate (12) in the first region and the second region, wherein each of the conductive patterns (24, 26) includes sequentially stacked layers of a conductive layer (24, 26) and a hard mask (28); removing the hard mask (28) in the second region to expose the conductive layer (24, 26); depositing an insulation layer (32, 58) on the entire resulting substrate (12) structure in the first region and the second region; selectively etching the insulation layer (32, 58) in the second region to form an opening

(38) exposing the conductive layer (24, 26); and forming a conductive wire electrically connected to the conductive barrier layer through the opening (column 9, line 7 – column 12, line 51).

Dennison fails to teach forming a diffusion barrier layer on the exposed conductive layer; etching the insulation layer in the second region to form an opening exposing the diffusion barrier layer; and forming a conductive wire electrically connected to the diffusion barrier layer through the opening.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
